Northeastern University's D'Amore-McKim School of Business enables students to be responsible business leaders of the world capable of working, navigating, and creating in a digital environment. This is more relevant than ever, thanks to advances in artificial intelligence and technology.

Bringing all of that together is Northeastern's experience-powered approach to education. Students build their own personal brands as they explore a vast array of real-world experiences on their paths to graduation, including global immersion, undergraduate research, service-learning projects, interdisciplinary courses, and our signature co-op program.

Our expert faculty members have a deep understanding of business theory, which they apply to both their research and teaching; many also consult and partner with the corporate world. They're plugged into industry trends and will challenge and inspire you. Dedicated academic advisors and co-op coordinators are on hand every step of the way to help students make decisions throughout their academic and professional careers.

We believe there are many types of borders in the world, including place, discipline, and time, and we work to bridge them. Our vision is to be the foremost institution that installs in our learners the necessary experience to learn across borders to lead with impact. We strive to leverage our unique experiential opportunities across our global network, build an interdisciplinary mindset through our offerings like combined majors, respond to both current and future business needs, and bridge new business knowledge between academics and industry. In pursuit of this vision, our faculty and staff embrace our values of inclusion, purpose, curiosity, humanics, communication, and global mindedness, which serve as a framework for collaboration inside and outside our community.

The school offers the following degree programs:

- Business Administration, BSBA (<https://catalog.northeastern.edu/undergraduate/business/business-administration-bsba/>)
- International Business, BSIB (<https://catalog.northeastern.edu/undergraduate/business/international-business-bsib/>)
- Business Administration and Law, BS (<https://catalog.northeastern.edu/undergraduate/business/business-administration-law-bs/>)
- Interdisciplinary Studies, BS (<https://catalog.northeastern.edu/undergraduate/business/interdisciplinary-studies-bs/>)
- Combined major degree programs (<https://catalog.northeastern.edu/undergraduate/business/business-administration-combined-majors/>)

For each degree program students must choose one of the concentrations listed below:

- Accounting
- Accounting and Advisory Services
- Brand Management
- Business Analytics
- Corporate Innovation
- Entrepreneurial Startups
- Family Business
- Finance
- Fintech
- Global Business and Strategy (available only to combined major(s) with International Business)
- Healthcare Management and Consulting
- International Business (available only as a second concentration)
- Management
- Management Information Systems
- Marketing
- Marketing Analytics
- Social Innovation and Entrepreneurship
- Supply Chain Management

The business curriculum is enhanced by courses in the sciences, humanities, and social sciences. In addition to their academic courses, all students are required to complete a cooperative education plan.

Cooperative education, or co-op, is experiential learning and deliberately integrates and blends the application of theory into practice. During co-op, students apply knowledge and skills learned across multiple contexts (classes, extracurricular activities, as student leaders, and by engaging in research) in a professional work environment. This application stimulates inquiry and expands knowledge acquisition when students return from co-op and engage in class discussion and discourse. By engaging on co-op, students develop increased self-awareness, a sense of purpose, and define career aspirations to impact postgraduate employment opportunities and lifelong learning. D'Amore-McKim students work together with their academic advisor and co-op coordinator to plan and prepare for their co-op experiences during their time at Northeastern and are required to complete one co-op experience and its prerequisites. Eligibility and the timeline for participation on co-op are based upon a variety of factors and are integrated into a student's academic plan.

The undergraduate program of the D'Amore-McKim School of Business meets the standards of AACSB International—The Association to Advance Collegiate Schools of Business—for faculty and student quality, curriculum design, and overall university support.

After graduation, students may obtain jobs in all aspects of business, both domestically and internationally, as well as in nonprofits and government.

Academic Progression Standards

In addition to meeting the university progression standards, students must achieve a 2.000 grade-point average in business courses. Freshmen must complete at least 32 semester hours in order to progress to sophomore status. Freshmen who earn fewer than 32 semester hours must make up the difference prior to graduation. Students beyond the first year must complete at least 16 semester hours each in-school (not on co-op) full semester and 8 semester hours each in-school summer half semester in order to progress to the next class standing.

Students who do not meet academic progression standards will be placed on academic probation and may be subject to dismissal from the university.

Pass/Fail Option

D'Amore-McKim School of Business students may opt to take courses on a pass/fail basis in accordance with university policy but should be aware that this policy applies to nonbusiness courses that will count as open electives only. Business courses may not be taken pass/fail under any circumstance.

Taking Courses While on Co-op

Students may take one class either online or in person while on co-op during the fall, spring, or summer term. Course participation should not interfere with the student's work performance on co-op. With prior written approval of their co-op coordinator and academic advisor, a student may register for a maximum of two courses or 8 semester hours while on co-op.

External Transfer to the D'Amore-McKim School of Business

External transfer students are accepted from other academic institutions during the fall and spring terms. Applications and accompanying materials are submitted directly to the Office of Undergraduate Admissions.

The D'Amore-McKim School of Business at Northeastern is accredited by AACSB International—The Association to Advance Collegiate Schools of Business—and as such complies with the following regulations governing the transferring of credit:

COURSES FROM AN AACSB-ACCREDITED INSTITUTION

Students may transfer a maximum of 80 semester hours of credit. A combination of 60 semester hours of nonbusiness courses and/or 28 semester hours of business courses will be accepted; 64 semester hours may be applied as credits toward the total semester hours required for degree conferral.

COURSES FROM A NON-AACSB-ACCREDITED INSTITUTION

Students may transfer a maximum of 60 semester hours of credit. A combination of 52 semester hours of nonbusiness courses and/or 20 semester hours of business courses will be accepted.

Some courses are not eligible for transfer. Check with the Office of Undergraduate Admissions for more details.

Graduation Requirements

The D'Amore-McKim School of Business reserves the right to amend programs, courses, and degree requirements to fulfill its educational responsibility to respond to relevant changes in the field.

Bachelor of Science degree candidates must complete all prescribed work of the curriculum in which they seek to qualify. The degree not only represents the formal completion of selected courses but also indicates professional study in the major or concentration. A GPA of 2.000 and a C average in all business courses are required for graduation.
