Computing has transformed the way people work and live, and its applications are limitless. Today, an understanding of computing is critical in business, healthcare, science, digital art, and other areas of our information-driven society. Computing knowledge and computing technology also contribute to resolving major issues in an increasingly complex world.

The Khoury College of Computer Sciences offers undergraduate programs that combine a strong foundation in computing with the opportunity to acquire a deep knowledge of another discipline in which computing plays a critical role. The college offers undergraduate degree programs in computer science (BS and BA), data science (BS), and cybersecurity (BS) and over 25 combined majors with partner departments in six other Northeastern colleges, allowing students to engage in intense study in two disciplines. The Bachelor of Science in Computer Science emphasizes strong technical competence in computer science, mathematics, science, and electrical engineering. The Bachelor of Arts in Computer Science combines computer science with a broad-based liberal arts education. The Bachelor of Science in Data Science combines computer science, information science, mathematics, statistics, and probability theory into an integrated curriculum. The Bachelor of Science in Cybersecurity provides the fundamental knowledge of computer science with an essential focus on experiential learning through security-related courses.

**Academic Progression Standards**

To progress to sophomore standing, students are required to earn:

- A minimum of 25 semester hours of credit
- A minimum overall and CS GPA of 1.800
- A grade of C or higher in First-Year Writing (ENGW 1111) or First-Year Writing for Multilingual Writers (ENGW 1102)

A deficit in any of these criteria after two semesters of enrollment will lead to student dismissal from Khoury College.

**Additional requirements**

- Students are permitted two attempts to earn a minimum grade of C– in the following courses:
  - Discrete Structures (CS 1800)
  - Fundamentals of Computer Science 1 (CS 2500)
  - Fundamentals of Computer Science 2 (CS 2510)

  If a C– is not earned by the second attempt, a student will be dismissed from Khoury College and Northeastern.

  If the following courses are required by the degree program, a minimum grade of C– is required:
  - Calculus for Business and Economics (MATH 1231)
  - Calculus and Differential Equations for Biology 1 (MATH 1251)
  - Calculus and Differential Equations for Biology 2 (MATH 1252)
  - Intensive Calculus for Engineers (MATH 1340)
  - Calculus 1 for Science and Engineering (MATH 1341)
  - Calculus 2 for Science and Engineering (MATH 1342)

**Maintaining good standing**

To remain in good academic standing and progress after the first year, students are required to fulfill:

- A minimum of 12 semester hours (SH) in each full-term semester (fall or spring)
- A minimum overall GPA of 2.000
- A minimum GPA of 2.000 in all CS/IS/DS courses
- A minimum GPA of 2.000 for business courses in the combined CS and business, IS and business, and cybersecurity and business majors (or the business portion of the combined major will be dropped)

**Program Length**

The Khoury College of Computer Sciences prides itself on flexibility and a very supportive advising staff. Depending upon the number of entry-level/transfer credits, the academic program, and student planning, it is possible to complete the program within four years with at least one experiential experience and usually with two such experiences.
