Academic Standards for Nursing Majors

Minimum passing grade standards exist for both professional courses, which are required courses taught within the major/college, and professional prerequisite courses, as highlighted below:

- Professional Course with a prefix HLTH, HSCI and NRSG require a minimum passing grade of C.
- Professional pre-requisite courses with a prefix BIOL, CHEM, MATH and PSYC require a minimum passing grade of C.

Courses in the above listed professional or professional prerequisite subjects that are taken as electives are exempt from the C or better rule and the University's minimum satisfactory grade will be accepted.

For all other courses:

The University's minimum passing grade for the course will be accepted. Please note: The University requires a minimum grade of C for ENGW 1111 and ENGW 3306.

PROGRESSION WITHIN BOUVÉ

- First-year students must complete at least 27 semester hours and meet all major prerequisite course requirements to progress to sophomore status. First-year students who earn fewer than the semester hours stipulated by the curriculum plan for their major must make up the difference prior to graduation.
- To progress into the subsequent year of professional courses, students must have completed all professional prerequisites with the required minimum passing grade as noted in the chart.
- Students must successfully complete all courses, as stipulated by their approved curriculum plan, with a grade of C or better, in order to progress into the next professional course.
- Students who either fail or withdraw from a professional course will need to successfully remediate that course before continuing in their approved curriculum plan.
- Students who incur an incomplete grade in a prerequisite course must obtain approval from their academic advisor, upon consultation with the department faculty and, when appropriate, the School of Nursing Academic Standing Committee, prior to progression into the subsequent course(s).

ACADEMIC DISMISSAL FROM MAJOR

Students in the Bouvé College of Health Sciences will be dismissed from their major effective the following academic semester for any of the reasons noted below:

- Students who do not meet the required minimum grade in two professional courses, including labs and clinical, will be dismissed from the program. Only one professional course can be remediated.
- Remediation of a failed professional course is a requirement for progression in the program. Students who do not meet the minimum grade in the same course twice will be dismissed from the program.
- If a student fails a second professional course, dismissal for failure of two professional courses will take effect.

Note: Students dismissed from their major but who are otherwise in good standing with the University are allowed to remain at Northeastern University for up to two semesters as a provisional Bouvé student, by the end of which the student is expected to move into a new major.

ACADEMIC APPEALS

Students who believe that they were erroneously, capriciously, or otherwise unfairly treated in an academic or cooperative education decision may petition to appeal the decision. Additional details about the process may be found in the Bouvé College Academic Affairs Appeals Policy (http://catalog.northeastern.edu/graduate/health-sciences/academic-policies-procedures/appeals-process/) and in Appeals Policies and Procedures in the university Undergraduate Student Handbook (https://www.northeastern.edu/admissions/handbook/).

Program Policies & Standards

Students are expected to adhere to the policies and standards of their program major as stated in this Manual to progress through their curriculum as planned. Students seeking any exceptions to the Program Policies and Standards specified for their program major will be brought...
before the School of Nursing Academic Standing Committee to present their petitions.

**BACHELOR OF SCIENCE IN NURSING PROGRAM REQUIREMENTS**

The nursing program includes two options for entering freshmen:

- A 5 year track with three, 6 month co-ops, and
- A 4 year track with two, 6 month co-ops.
- Students must declare by September 1 of their third year, either the 5 or 4 year track. Nursing students must complete a minimum of two, 6-month co-ops. At least one of the two must be working with registered nurses providing direct patient care.
- Students must complete all co-op experiences planned in their academic program with a grade of ‘S’ for each co-op experience.

Change-of-major students should access and follow the requirements found at the Office of Bouve Undergraduate Student Services under Change of Major (https://bouve.northeastern.edu/student-services/undergraduate-change-of-major/).

Students must successfully complete 133 semester hours of academic credit to graduate, in compliance with University and nursing curriculum requirements and their expected year of graduation.

- Degree requirements must be completed within eight years from the date of matriculation
- Students are required to attend all scheduled nursing classes, clinical experiences, and clinical labs on campus and in clinical agencies. If the student fails to meet attendance requirements, the student will fail the associated class, clinical and/or lab.

**CLINICAL REQUIREMENTS**

Clinical settings require criminal background checks. Additionally, international students require curricular practical training (CPT) clearance to meet federal requirements for all clinical and co-op experiences.

All students must receive a health clearance from University Health and Counseling Services (UHCS). Health clearance is based on specific documentation of immunity from infectious disease and a physical examination (this may be done by the student's own healthcare provider). In addition, nursing students need a clinical clearance in order to participate in clinical courses. Clinical clearance, managed by the School of Nursing's Clinical Placement Office, includes verification of certification in cardiopulmonary resuscitation (CPR); recent negative tuberculosis screening (PPD); positive titres for MMR, varicella, and hepatitis B; vaccines including TDAP and influenza; and additional health screenings as may be required by the program. It is the responsibility of the student to stay current and to provide documentation required for clinical clearance throughout the entire nursing program.

Six weeks prior to the start of a clinical course, students must show:

- Evidence of immunizations and health clearance by University Health and Counseling Services,
- Documentation of CPR certification and
- Completion of a Criminal Offender Record Information (CORI) background check to be eligible for clinical placement.
- Students will not be allowed to start the clinical course, and may be dropped from the clinical course, if these processes are not satisfactorily completed.

Students should refer to Clinical Course Requirements, Health Clearance Requirements for Clinical Rotations and the Professional Conduct statement here (http://catalog.northeastern.edu/graduate/health-sciences/academic-policies-procedures/practicum-internship-policies/) for additional details.

**CLINICAL WARNING**

A nursing student may be placed on clinical warning, or fail the clinical course, at any time during the semester for the following reasons:

- Failing to meet the clinical objectives at a satisfactory level.
- Failing to demonstrate safe practice. Students may be removed from the clinical area, before completion of the clinical rotation, if the instructor determines that the student is unsafe. This will result in the student failing the clinical course.
- Failing to meet the attendance requirement.

**Conditions**

- Students on clinical warning must develop an academic plan with the clinical instructor to address clinical performance.
- Students will be expected to improve clinical performance by adhering to the plan.
- Failure to adhere to the terms of the plan will result in the student failing the course and being placed on academic probation. All conditions of academic probation will then apply.

**Notification**

- The clinical instructor will issue the student a Clinical Warning via the Faculty and Advisor Communication Tool (FACT) identifying the problem.
- The student and the instructor should then develop a plan together to address the deficiency.
- Copies of the warning will be forwarded to the Program Director and/or the Assistant Dean for Undergraduate programs if needed.
- This is an administrative warning and will not be posted on the transcript.
- Satisfactory completion of the clinical experience component of the course will result in removal of the warning from the student’s file.

**BLOOD BORNE PATHOGEN EXPOSURE AND INJURY**

Any students who sustain any kind of injury and/or exposure related to blood borne, respiratory or other pathogens or hazardous materials while on a clinical rotation must immediately follow the procedures below. Students are provided access to post-exposure counseling through the university’s partner, OEHN (Occupational Environmental Health Network).

**Procedures**

Students must follow the Affiliate site's protocol for exposure reporting, testing, counseling and follow up. If there is no affiliate site protocol, Students should notify their program as well as the Office of Risk Services (https://www.northeastern.edu/risk-services/ (risk@northeastern.edu)), within 24 hours of the incident. Students must also inform their program’s Director of Clinical Education (or unit designee responsible for clinical placements) and/or Medical Director and submit, in writing, a description of the incident and injury or exposure.

The program's Director of Clinical Education (or unit designee responsible for clinical placements) will notify the following individuals that an incident has occurred (PHI only necessary upon request):

- The Associate Dean of Clinical, Rehabilitation and New Initiatives
- The unit head
- The Dean
The Office of Risk Services (https://www.northeastern.edu/risk-services/) (risk@northeastern.edu)

Students on or near the NU Boston campus are encouraged to schedule an appointment with UHCS to discuss the exposure, treatment, potential risks and side effects of any medications. Students in clinical programs outside the Boston area should contact the Occupational & Environmental Health Network (OEHN) at 1-866-360-8100. OEHN is open 24 hours a day, 7 days a week. OEHN will collect appropriate information and engage the doctor on call who can help to direct appropriate care depending on exposure and circumstances.

Students should rely on their health insurance for necessary treatment. Out of pocket costs may be submitted to the Office of Risk Services for reimbursement consideration.

Students should contact their Clinical Education Program Director and/or the Office of Risk Services (https://www.northeastern.edu/risk-services/) with any further questions related to exposure-related treatment.

Technical Standards for Admission, Academic Progression, and Graduation

The primary mission of the School of Nursing is to educate our students to provide evidence-based, culturally and linguistically competent, ethical healthcare that is high quality, safe, and accessible to diverse local, national and global communities. Our programs prepare students to become leaders as nurse clinicians, educators, scholars, and researchers. The School of Nursing is also committed to achieving the goals of the university to become an outstanding national research, practice-oriented, student-centered, urban institution.

The goal of the School of Nursing is to prepare students to think critically and to practice nursing competently and compassionately in rapidly changing practice environments. All efforts are designed to build nursing knowledge, enhance nursing practice and patient safety, foster professional integrity, and ultimately improve the health outcomes of patients, families, and communities across the continuum of care.

In addition to classroom learning, students’ clinical education experiences occur in settings, like hospitals, in which patient safety is the priority. For this reason, students who, upon enrollment in any of the nursing programs, seek accommodations from the Disability Resource Center (DRC) at NU must also request an assessment of accommodations that would be needed for clinical education.

Certain functional abilities are essential for the delivery of safe, effective nursing care during clinical education activities. Therefore, the School of Nursing has determined that certain technical standards are requisite for admission, progression, and graduation from the nursing programs. An individual must be able to independently, with or without reasonable accommodation, meet the following technical standards:

1. General abilities
2. Observation
3. Communication
4. Motor
5. Intellectual, conceptual, and quantitative abilities
6. Essential behavioral and social attributes
7. Ability to manage stressful situations

Individuals unable to meet these technical standards, with or without reasonable accommodation, will not be able to complete the program.

GENERAL ABILITIES

The student is expected to possess functional use of the senses of vision, touch, hearing, and smell so that data received by the senses may be integrated, analyzed, and synthesized in a consistent and accurate manner. A student must be able to respond promptly to urgent situations that may occur during clinical training activities and must not hinder the ability of other members of the health care team to provide prompt treatment and care to patients.

OBSERVATIONAL ABILITY

The student must have sufficient capacity to make accurate visual observations and interpret them in the context of laboratory studies, medication administration, and patient care activities. In addition, the student must be able to document these observations and maintain accurate records.

COMMUNICATION ABILITY

The student must communicate both verbally and non-verbally in order to elicit information and to convey that information to others. Each student must have the ability to read and write accurately and comprehensively in English. The student must be able to thoroughly comprehend and fluently speak the English language so as to facilitate communication with patients, families, professionals in health care settings, instructors, and other students. The student must also be able to present information in a professional, logical manner and to provide counseling and instruction in order to effectively care for patients and their families.

MOTOR ABILITY

The student must be able to perform gross and fine motor movements with sufficient coordination needed to perform complete physical examinations utilizing the techniques of inspection, palpation, percussion, auscultation, and other diagnostic maneuvers. A student must develop the skills needed to perform or assist with procedures, treatments, administration of medication, and the management and operation of diagnostic and therapeutic medical equipment. The student possess the physical and mental stamina to meet the demands associated with extended periods of sitting, standing, moving, and physical exertion required for satisfactory and safe performance in the clinical and classroom settings.

INTELLECTUAL, CONCEPTUAL, AND QUANTITATIVE ABILITIES

The student must be able to develop and refine critical thinking skills that are essential to nursing practice. Critical thinking involves the abilities to measure, calculate, reason, analyze, and synthesize objective and subjective data, and to make decisions, often in a time-urgent environment, that reflect consistent and thoughtful deliberation and sound clinical judgment.

BEHAVIORAL AND SOCIAL ATTRIBUTES

Compassion, integrity, motivation, effective interpersonal skills, and concern for others are personal attributes required of those in the nursing programs. The student must be able to work under supervision of a clinical instructor or preceptor; this is essential to ensure patient safety. The student must exercise good judgment and promptly complete all responsibilities in the classroom and clinical settings. The ability to establish culturally competent relationships with individuals, families, and groups and to respond effectively to patients who have different intellectual capacities is critical to nursing practice.

EXAMINATIONS DISABILITY AND SPECIAL NEEDS

Students with special needs are encouraged to contact the Disability Resource Center (DRC) in 20 Dodge Hall to register and request services. Students must notify the instructor at the beginning of the semester if they plan to use DRC services throughout the course. The staff in that office is available for assistance.

**Nursing Major Requirements**

The student must be able to adapt to and function effectively in stressful situations in both the classroom and clinical settings, including emergency situations. These stressors include personal, patient care, family, faculty/peer, and program related issues.

**State Board Nursing Examination**

In Massachusetts, and several other states, the registering board requires that graduates taking the National Council Licensure Examination (NCLEX-RN) meet standards of “good moral character” (GMC). Students may review the GMC requirement specified at Massachusetts General Laws Chapter 112, sections 74, 74A, and 76; Licensure Policy No. 00-01 under “Rules & Regulations” on the Massachusetts BORN website.

Please visit Bouvé College Learning Outcomes for the specific student learning outcomes for this program.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (http://catalog.northeastern.edu/undergraduate/university-academics/university-wide-requirements/).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (http://catalog.northeastern.edu/undergraduate/university-academics/nupath/).

**Electives**

Complete four courses (for at least 15 credits) outside the School of Nursing or NRSG courses not used to fulfill requirements above.

**NUPATH REQUIREMENTS SATISFIED**

- Analyzing/Using Data (AD)
- Capstone Experience (CE)
- Engaging Difference/Diversity (DD)
- Exploring Creative Expression and Innovation (EI)
- Ethical Reasoning (ER)
- Integration Experience (IC)
- Conducting Formal/Quantitative Reasoning (FQ)
- Interpreting Culture (IC)
- Natural/Designed World (ND)
- Society/Institutions (SI)
- Writing Intensive in the Major (WI)
- Advanced Writing in the Disciplines (WD)

Integrating Knowledge and Skills Through Experience (EX) is satisfied through co-op.

Students are responsible for using the general electives in this program to complete NUPath requirements not satisfied by required courses in this program.
