The Department of Biology offers a minor in biology, which involves taking five biology courses, two of which must have a corequisite lab, and one science course chosen from a range of science departments.

**Minor Requirements**
Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

**Restrictions**
This minor is not available for students who major in biology, biochemistry, behavioral neuroscience, cell and molecular biology, marine biology, or any combined major that involves biology.

**Required Biology Courses**
Complete five biology courses for a total of at least 22 semester hours. Three of the five courses must be at the 2000 level or above. Two of the five courses must contain a lab corequisite.

**Options:**
- BIOL 2000 to BIOL 3999
- BIOL 5000 to BIOL 5999
- EEMB 2290 to EEMB 5515
- EEMB 5520 to EEMB 5534
- EEMB 5548 to EEMB 5569

**Science Course**
Complete one course from the BIOL, CHEM, EEMB, ENVR, or PHYS subject areas.

**GPA Requirement**
2.000 GPA required in the minor
