Northeastern University’s D’Amore-McKim School of Business develops leaders and thinkers who will guide the future of work in an ever-evolving digital landscape. D’Amore-McKim master’s degree programs help students build specialized expertise and gain a competitive advantage.

Our innovative master’s programs—taught with D’Amore-McKim’s focus on the tech economy—prepare students to excel in a data-driven business world. Students learn from our respected business faculty, many of whom are consultants, founders of tech start-ups, and respected management leaders. Students study alongside diverse classmates who share their passions and interests.

Students enroll in D’Amore-McKim’s master’s degrees for full-time or part-time study.
