

Digital Communication and Media, BS

The Bachelors of Science in Digital Communication and Media prepares students for jobs in the expanding market for digital based communications. Students are exposed to the digital channels and technology at the core of today's positions in corporate and marketing communications.

Students start with foundation courses in such areas as English and Ethics. These are followed by major course selections in Management, Marketing, and Visual Media.

Students then move to the heart of the program to develop digital competencies. These courses cover communication research methods, digital communication strategy, and inbound marketing fundamentals. From here, students enter a unique virtual public relations firm to design, implement, and manage a digital communication campaign for a real-world client.

Successful graduates of the program should possess the competencies for digital communication jobs in a wide range of fields, including corporations, public relations and marketing agencies, and nonprofit organizations.

Program Requirements

- Concentrations and course offerings may vary by campus and/or by program modality. Please consult with your advisor or admissions coach for the course availability each term at your campus or within your program modality.
- Certain options within the program may be *required* at certain campuses or for certain program modalities. Please consult with your advisor or admissions coach for requirements at your campus or for your program modality.

Complete all courses listed below unless otherwise indicated.

Universitywide Requirement

Minimum 120 total semester hours required.

Minimum 2.000 GPA required.

Students must earn a minimum of 60 Northeastern University semester hours in order to receive a bachelor's degree.

Note: Individual program requirements may exceed the above minima.

NUpath Requirements

All undergraduate students are required to complete the NUpath requirements (<https://catalog.northeastern.edu/professional-studies/university-academics/nupath/>).

NUpath requirements Understanding Societies and Institutions (SI) and Natural and Designed World (ND) are not explicitly satisfied by required courses in the curriculum at this time. Students are responsible for satisfying these requirements, and if these are not fulfilled in required major courses, they should use general electives to do so.

Foundation Courses
