

Music with Concentration in Music Technology, BS

The Bachelor of Science in Music with Concentration in Music Technology focuses on the interdisciplinary application of creative audio technologies to a broad range of outcomes, including analog/digital systems, hardware and software design, musical instrument design, audio synthesis and signal processing, human-computer interaction, and innovative artistic applications of music technology. Students receive fundamental training in music and music technology before embarking on curricular offerings that are in accordance with their interests. An emphasis is maintained throughout on imaginative exploration, collaboration across disciplines, and real-world experience.

Program Requirements

- Concentrations and course offerings may vary by campus and/or by program modality. Please consult with your advisor or admissions coach for the course availability each term at your campus or within your program modality.
