

Khoury Combined Majors

Khoury College offers combined majors with over 25 partner disciplines. Combined majors are carefully constructed degrees allowing students to explore multiple academic fields while staying on track for graduation. Each of the combined majors offers the opportunity for intense study in two disciplines with appropriate breadth in the liberal arts. Students take 9 to 13 courses in each subject and at least one integrative course that binds the disciplines together. These programs offer an excellent educational opportunity for the ambitious student.
