The mission of the College of Engineering is to prepare students to contribute to the world through a practice-oriented, experiential, and interdisciplinary program, the college offers a Bachelor of Science degree program with specializations in bioengineering, chemical engineering, civil engineering, computer engineering, electrical engineering, environmental engineering, industrial engineering, and mechanical engineering. The college offers a four- to six-week opportunity to study engineering or a related field in the context of an international experience.

In addition to a full array of university services, specialized advising and other support services (including tutoring) are provided. Students in the University Honors Program may participate in honors sections of a number of courses. Students are encouraged to become involved in a broad range of student organizations offered within the college as an enriching addition to academic studies and co-op experience.

**Academic Standards**

**ACADEMIC PROGRESSION STANDARDS**

In addition to meeting university progression standards, it is expected that full-time engineering students enroll in four courses with appropriate labs and recitations and successfully complete at least 12 semester hours each academic semester with an acceptable GPA as noted below. Any exceptions to the course load requirement must be approved in writing by the student's academic advisor prior to the start of each semester.

**GPA REQUIREMENTS FOR GRADUATION**

A minimum cumulative GPA requirement of 2.000 in major (department) courses and a minimum cumulative GPA requirement of 2.000 overall are required for graduation.

**CRITERIA FOR ACADEMIC PROBATION**

Full-time students in the College of Engineering will be placed on academic probation effective for the following academic semester for any of the reasons noted below.

- First-year Students:
  - Not maintaining a semester GPA of at least a 1.800 at the end of each full-term semester (fall, spring) of the first-year curriculum
  - Not earning at least 12 semester hours at the end of each semester of the first-year curriculum
  - Not maintaining a GPA of at least a 2.000 in the major at the end of each academic full-term semester of the curriculum and at the end of each full-term academic semester (fall, spring) thereafter
- Upperclass and Transfer Students:
  - Not earning at least 12 semester hours in the academic full-term semester (fall, spring) just completed
  - Not maintaining an overall cumulative GPA of at least 2.000 at the end of each full-term academic semester (fall, spring)
  - Not maintaining a GPA of at least 2.000 in the major at the end of the fourth academic full-term semester of the curriculum and at the end of each full-term academic semester (fall, spring) thereafter
  - Accumulating three outstanding course deficiencies (grades of F, I, W, NE, U, or missing grades)
  - Earning a full-term semester (fall, spring) GPA of 1.800 or lower
  - Not following a program of study approved by the student's academic advisor

A notation of the academic probation action will appear on the internal record but not on the permanent transcript.

**CRITERIA FOR ACADEMIC DISMISSAL**

Students who have below a 1.000 GPA in any academic term following their first semester or cumulatively may be dismissed, regardless of their prior academic status, at the discretion of the college.
Full-time students on academic probation in the College of Engineering are eligible for academic dismissal from the university for any of the reasons noted below:

- Earning a GPA below 1.800 in a current term (fall, spring, summer, summer 1, or summer 2)
- Completing fewer than 12 semester hours in a full-term (fall, spring) academic semester
- Not following a program of study approved by the student’s academic advisor
- Remaining on academic probation after two full-term (fall, spring) academic semesters

Notation of this academic dismissal action will appear on the permanent transcript.

PASS/FAIL COURSEWORK
Students may elect to take courses on a pass/fail basis in accordance with university policy. A maximum of 8 semester hours may be taken pass/fail toward fulfillment of degree requirements in the College of Engineering. A maximum of 4 semester hours of pass/fail coursework is allowed per semester. Only general electives taken outside the College of Engineering may be taken on a pass/fail grading basis.

GRADUATION REQUIREMENTS
The college reserves the right to amend programs, courses, and degree requirements to fulfill its educational responsibility to respond to relevant changes in the field.

Students must complete all of the requirements in the degree program in which they are candidates. Degree requirements are based upon the year of graduation, determined by the date of entry or reentry into the College of Engineering. Degree requirements and the year of graduation for a degree candidate who fails to make normal academic progress will be subject to review and possible change.

PROGRESSION TOWARD FULFILLMENT OF DEGREE REQUIREMENTS
Students are expected to develop and follow a program of study outlining scheduled coursework to complete degree requirements. If changes to the year of graduation are to be made after completion of the third year of study in the major program curriculum, revised plans should be submitted to an academic advisor for review and approval. Students pursuing a minor course of study should declare their minor no later than the third year.
