Husky 101 Orientation (<https://www.northeastern.edu/orientation/>) hosted by the Office of Student Orientation and Family Programs is **mandatory for newly enrolled first-year and transfer undergraduate students** and highly encouraged for families.

Husky 101 connects students with classmates and their academic advising team, student clubs and organizations, and platforms to chart their Northeastern path with global, research, and experiential opportunities and programs.

Once a student officially commits to the university by paying the enrollment fee, they will receive communications to participate in Husky 101 Orientation.
